

One Step Away

A: We're gazing on a wondrous scene,
our childhood dreams one step away.

S: Deep in our souls we know that we reign supreme,
we've found our home and here we'll stay.

B: We've travelled far on a crowded train,
from a humble start and we've felt the pain and pleasure.

T: No we know there's no need for pain:
If you're born to dance, then it's in the blood rushing through your veins.

SATB: Hearts pounding and our heads held high,
we pray that we're one step away.
God gave us strength, courage and the wings to fly;
We proved we're more than protégés.

S: A timeless beauty will soon appear.

T: Though the road is long, we can taste the thrill of triumph.

AB: We're creating an atmosphere.
All we need is love. We have...

SATB: ...broken the spell, it's in our blood,
our chance to excel, grown from a bud.
We learned to deal with rejection,
one step away from perfection.
One step away, one step away, one step away.

AS: We worked so hard all the hours God gave,
graceful and poised as we sweat and slave. (TB: *One step away*)
We dance until we drop. (TB: *One step away*)
We dance and never stop.

We tell ourselves that we must be brave,
we saved madame from an early grave. (TB: *One step away*)
We'll dance until we cry. (TB: *One step away*)
We'll dance until we die.

S: Wonderful feeling filling us and we can't be a flop.

T: We'll show we're willing, work until we drop, won't catch us on the hop.

A: We're aiming for the top.

B: No lonely feeling killing us, it seems we do belong.

SAB: Our welcome thrilling, where could we go wrong?

T: We always will belong,

AB: this company is strong.

S: We know they want us, we will show them just how good we'll be.

T: So who will taunt us with their family tree and glorious history?

A: How lucky can you be?

B: We know they want us, we will prove to them how good we are.

T: They cannot haunt us, who will look a fool

SA: when finally we rule

SATB: and graduate from school?

B: The time's approaching to spread our wings,
we will make a vow that our friendship lasts forever.

T: No we know there's no need for tears:
If it's in the blood and you're born to dance, inner strength appears.

SATB: Hearts pounding and our heads held high,
our wildest dreams one step away.
God give us health, friendship and we'll touch the sky.
We proved that we're one step away.

A: Our childhood dreams one step away.

SATB: One step, yes, we're one step away.
